NCS-32

MARENIUS

NEGOTIATOR´S COMM SYSTEM

- **Complete telecom package**
- **GSM 900/1800**
- **DECT with separate phone**
- **PSTN for public network**
- **Socket for 2-wire field phone**
- **CompactFlash recorder**
- **SMS with keyboard**
- **Several monitor functions**
- **Powered by mains and battery**

NCS-32 is the new follow-up to NCS-31.
More functions have been added and performance has been improved. NCS-32 will handle SMS in and out. A socket for an ordinary field telephone is added. The new DECT phone is a specially designed unit with a single key.
Menus, display and user interface has been vastly improved.

NCS-32 represents a complete solution for communication during negotiation in a hostage situation.

It offers a choice of telecom method:

- **GSM** if the object has a cell phone.
- **DECT** if it will be possible to hand over the DECT phone to the object (see image above).
- **PSTN** if there is a public phone close to the object.
- **Field telephone** if there is a wired phone available, that can be thrown in to the object.

Two individual headsets may be connected. There is a built-in loudspeaker and several sockets for connecting external monitoring systems and recorders.

All communication can easily be recorded to a Compact Flash memory card that will take up to 70 hours of recording (8 GB). Playback of any recording can be done immediately. The CF card can easily be reviewed with a PC. The file format is standard ‘wav’, compatible with Windows Media Player and most other media players, also for Mac.

SMS can be sent and received. An included, foldable keyboard is used for writing text. The bright OLED display is used for reading text.
The user interface is menu-based and controlled by a NaviKey, much like that you will find on digital cameras.

An extensive set of accessories is included: DECT phone, antennas, CF card, 2x headsets, cables, mains adapter/charger, illumination, and more...

Optional accessories are:

- Wireless, battery-powered loudspeakers
- DECT phone
- CF card reader
- Headset

The complete system includes:

- 1x NCS-32 system case
- 1x DECT handheld phone
- 1x mains adapter/charger
- 1x power supply cable w/ car adapter
- 1x foldable keyboard
- 1x CompactFlash memory card
- 2x Headsets
- 2x antennas
- 1x PSTN cable and plug
- 1x accessories case
- 1x user's manual
